## **Consent to use Telephone and/or Internet Video Platforms for Counseling**

I acknowledge that I am committing to receive counseling via telephone and/or an internet video platform with CCEF-Montana.

I understand that neither I nor CCEF-Montana can control the use of images and information shared via an internet connection. Specifically, I do not and will not hold CCEF-Montana responsible for the transmission, processing, or possible storage by internet processing companies of any information shared during our internet sessions. This agreement does not change CCEF-Montana's responsibility to uphold the standards for careful treatment of counseling information as outlined in the Informed Consent agreement.

Furthermore, by receiving counseling with any provider at CCEF-Montana via the internet or telephone, I am confirming that I have investigated the privacy policy of the platform used to my satisfaction and accept that policy as posted on the internet as of today. In accepting the telephone provider's or internet video platform's policies on privacy, I am agreeing that any concern I have about the privacy of my communications will be pursued with the particular platform used.

I also acknowledge that CCEF-Montana and my CCEF-Montana counselor are unable to confirm the privacy of the sessions on my end of the transmission. Therefore, I agree that I am solely responsible to take whatever steps I deem necessary or desirable to protect my privacy within the room or area where I am receiving counseling.
